WHO WE ARE

GEL LLC provides comprehensive testing, analysis and reporting of your organization's known cyber liabilities. We provide one-time and ongoing maintenance to keep your business secure as you grow. Whether you're a one-person office or employ hundreds, we can manage your IT security and provide valuable peace of mind.

The GEL LLC mission is to provide high-quality IT/Cyber services to USA, State and Local Governments, as well as small/medium sized business in the disciplines of cybersecurity, info-security, TAK and SQA by providing optimal-value solutions contributing to your security efforts. We deliver quality solutions that are on-time and within budget by leveraging our ability to be flexible, innovative, and to rapidly respond to our customers' needs and requirements.

GEL LLC employs highly skilled professional staff to serve our clients' needs. We create strategic partnerships with leading industry partners who mirror our ability to attract and retain the most talented and qualified people to support the mission.

Specializing in vulnerability assessment, penetration testing, security training, TAK Adin, and software quality assurance testing. We work with governmental, individual, start-up, small and mid-level
